# Sage Intacct Multi-Entity and Multi-Currency Global Consolidations

Consolidate hundreds of entities in minutes, not days—productivity more than 50%.

If your multi-location organization faces complexities—decentralized payables, inter-entity transactions, multiple currencies, global consolidations—you're ready for Sage Intacct. Our accounting software for multiple entities automates financial consolidation activities including currency conversions, inter-entity transactions, local tax reporting and more. That eliminates manual effort so you can close the books 25%–70% faster and concentrate on growth.

#### Close quickly with multi-entity consolidations

- **Journalized consolidations:** Get granular visibility with eliminations and currency impacts so you can easily make postconsolidation adjustments.
- **Inter-company eliminations:** Automate inter-company eliminations at the point of consolidation.
- **Real-time reporting:** Close the books faster and view interim summary figures at any time—your financial statements are ready when you are.

#### Manage multi-currency needs

- **Currency conversions.** Use accurate, automated exchange rates for currency conversions and revaluations that stay up-to-date, even as rates change. Automatically balance your inter-entity transaction entries across entities with multiple base currencies.
- **ASC 830/FAS-52 compliance.** Get ASC 830/FAS-52 compliant multi-currency consolidation, creating cumulative translation adjustments (CTAs).

#### Set up and maintenance for additional entities

- **Simple entity and inter-entity set up:** Set up new entities with configurable rules for inter-entity transactions, bank accounts, and more. See, set up, and manage all your inter-entity relationships in one place
- **Flexible definitions:** Have new entities inherit your existing lists, process definitions, and charts of accounts or configure new entities with unique definitions. Centralize payables and receivables or get entity-specific general ledger accounts.
